NITTTR Bhopal : An Introduction

National Institute of Technical Teachers' Training & Research (earlier known as Technical Teachers' Training Institute) Bhopal is a premier national Institution established in 1966 by the Govt. of India under the Ministry of Human Resource Development, for the improvement of the quality of technical education systems. Over the years, the institute along with its Extension Centres at Ahmedabad, Pune and Panaji has developed an excellent working synergic partnership with industries and field agencies besides several technical institutions of repute at the national and international level. The institute holds expertise in the areas of human resource development, curriculum development, educational management, policy formulation, continuing education, student assessment, multimedia and video programme development, community networking, industrial liaison, designing learning resources and educational research. This institute is ISO 9001:2000 certified for its quality services and products. It is internationally recognized for its HRD services and innovative approaches in developing professionally competent manpower. The institute has a matrix organizational structure to integrate the departments and centres.

VISION

To be the world class leader for integrated development of technical education and training systems catering to the changing needs while achieving highest level of client satisfaction, quality, professional values and contributing to technological, economic and social development of the country.
